Project Proposal
(put the title of your project here)

Group Member and Contribution:

(Please list all names, emails, R#s of all members and your contributions)
e.g., A, A@ttu.edu, A#: drafting the problem statement of the report
Contribution needs to be clear and detailed.

Problem Statement:
(background and applications, do not copy from paper, use your own words to summarize)

Problem Solution from Previous Work
(Algorithm Description)

Experiment Result from Previous Work
(Show simulation results, figures in previous paper)

Proposed Idea
(Show your proposed idea to improve the previous work. You can either 1) refine the current algorithm for enhanced performance or 2) address a more comprehensive problem by incorporating aspects overlooked in the previous problem.)
